History:

D. A. Van Dam & Associates, LLC was founded in November 1970 and we specialize in the "no-dig" method of rehabilitation of deteriorated culverts, manholes, installation of manhole chimney seals and raising of manhole castings.

We work with contractors, both Prime / Design Build Companies, who need a **WBE / WOSB / SBA certified company (seeking DBE certification)** specializing in "no-dig" infrastructure rehabilitation solutions. We are continually adding & offering turn-key solutions and products to solve the aging infrastructure needs of America. Call to discuss your needs.
